

CHI Latest Numbers

CHI is well on its way to keeping Santa Clara County kids healthy! As of August 28, 2005, outreach, education and marketing efforts have increased the number of enrollment applications to 102,085. That means over 100,000 more children will have access to medical, dental and vision care covered by one of three insurance programs. Congratulations to all the people contributing to the success of CHI!
